## COMPANY STATEMENT

# AIRCRAFT INCIDENT NEAR PRINCE GEORGE, BRITISH COLUMBIA

**Toronto, Ontario – August 21st, 2026 – Evergold Corp. (EVER: TSXV) ("Evergold" or the "Company")** confirms that two members of its exploration team were aboard the aircraft involved in an emergency landing on Foothills Boulevard in Prince George, B.C., on the afternoon of August 20, 2026.

Unfortunately, the aircraft struck several vehicles as the pilot was forced to make an emergency landing on a busy public road. Tragically, the Company has learned that a person in one of those vehicles has since passed away. On behalf of Evergold Corp. and all our associated contractors, we extend our most sincere condolences to the family, friends, and loved ones of the deceased during this difficult time.

The aircraft involved in the accident, operated by Sekani Air Ltd., was transporting the Company's personnel south on a scheduled break from work on Evergold's Golden Lion Project. We can confirm that both Golden Lion Project crew members aboard the aircraft are safe and uninjured.

In addition to Evergold's personnel, other passengers on board included personnel from several other mineral exploration companies as well as the pilot; they too are safe and uninjured.

The Company would like to re-emphasize its strong commitment to the safety of our employees, contractors, and the public. We will support our project's crew members and their families as needed following this incident, and we will provide updates as appropriate while the investigation into this tragic accident progresses.

On Behalf of the Board of Directors

Alex Walcott, P.Geo
President ,CEO & Director

***Cautionary Statement Regarding Forward-Looking Information***

*This news release includes certain "forward-looking statements" which are not comprised of historical facts. Forward-looking statements include estimates and statements that describe the*

*Company's future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to the Company, the Company provides no assurance that actual results will meet management's expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to, risks related to the failure to identify mineral resources, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, political risks, inability to fulfill the duty to accommodate First Nations, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, capital and operating costs varying significantly from estimates and the other risks involved in the mineral exploration and development industry, and those risks set out in the Company's public documents filed on SEDAR. Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.*
