

A TERRIFIC BOTTOM-FISH SPECULATION

1. An end-of-season, high-grade domain / gold-silver discovery at the GL1 Main zone, Golden Lion property, B.C., came too late in 2021 to overcome downdraft from tax-loss selling
2. Highest grades ever drilled on the property, within a very large emerging gold-silver system
3. An award-winning team that's had major recent success (+20 Moz AuEq 'Saddle' discovery in 2017 / GT Gold – sold to Newmont 2021)
4. Stock at its seasonal lows and very well positioned for pending 2022 high-grade follow-up drill program
5. Well financed – \$3 million cash and zero debt.
